Principle 1: Equitable Use
The building is usable by anyone. It does not disadvantage, stigmatize or privilege any group of users.

Principle 2: Flexibility in Use
The building accommodates not only a wide range of individual user preferences but also users' varying functional abilities.

Principle 3: Simple and Intuitive
How to use the building is easy to understand regardless of the user's experience, knowledge, language skills or concentration level.

Principle 4: Perceptible Information
The building communicates all necessary information effectively to all users regardless of ambient conditions or the users' varying intellectual or sensory abilities.

Principle 5: Tolerance for Error
The building minimizes hazards and adverse consequences of accidental or unintended actions by all users.

Principle 6: Low Physical Effort
Everyone can use the building efficiently, comfortably and with minimal fatigue.

Principle 7: Size and Space for Approach and Use
The building provides appropriate size and space for approach, reach, manipulation and use regardless of the users' body size, posture, or functional abilities.
